Page

Light Toxicity and Its Meaning to Ophthalmic Photographers Marlene Fishman, Morris Waxier, David Sliney, Bernard C. Szirth, Salvatore A. D'Anna, and Don Wong	6
Introduction to Symposium Marlene Fishman	7
Safety of Intraocular Photography Morris Waxier	8
Wavelength and Time: Determining Safety Standards for Light Sources David Sliney	11
Unanswered Questions Concerning the Safety of Intraocular Photography Morris Waxier	17
Survey of Filtration in Fundus and Slit-lamp Cameras Bernard C. Szirth	18
Retinal Photosensitivity Caused by Sodium Fluorescein Salvatore A. D'Anna	20
Conclusion to Symposium Marlene Fishman	23

LETTERS TO THE EDITOR

Fluorescein Angiography Using Low-intensity Flash Chris S. Oeinck	25
--	----

HISTORICAL PERSPECTIVES

Light Toxicity Circa 1869 Patrick J. Saine	27

Front cover: White light and blue-filtered photographs showing three patients' extremities following intravenous fluorescein angiography. For explanation of photographic methods and interpretation of these phenomena, see Cain, D. R., et al.: "Non-Painful Vascular Staining Following the Injection of Sodium Fluorescein" in this issue.
